Mrs. Kate West, who died at her home on Jellico creek, was probably the oldest person in Whitley county, having celebrated her 100th birthday the 19 of last October. She leaves a large number of descendants, having been connected with many of the best families of the county.

A Danville dispatch says: City Attorney Henry Jackson and Chief of Police Helm made a regular Carrie Nation raid on Danville's blind tigers. Through the aid of a detective, over 130 warrants have been issued against Negro joints and judgments are being entered without contest in any of the cases. The fines and costs will approximate \$7,000.

A double tragedy occurred at a dance at Jellico, Saturday night, as the result of an old grudge between two miners named Strunk and Surgeon. The two men were dancing. One of them accidentally jostled the other, and a quarrel resulted. Strunk fired at Surgeon, the ball passing entirely through his body and killing a boy named Martin, who was directly behind him. Surgeon fell without a moan, being killed instantly. Strunk fled.

DANGER OF COLDS AND LA GRIPPE.

The greatest danger from colds and la grippe is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that it is certain preventive of that dangerous malady. It will cure a cold or attack of la grippe in less time than any other treatment. It is pleasant and safe to take. For sale by Craig & Hocker, Druggists.

Forty-seven murderers, under sentence of death by hanging, are awaiting death from natural causes in the Kansas penitentiary, because that State hasn't now, nor has had for many years, a Governor with the nerve to sign a death warrant.

Mrs. Stevens, president of the W.C.T.U., indorsed Mrs. Nation.

LANCASTER.

Elder A. R. Moore preached Sunday evening on "A Pillar in the Temple of God."

A tobacco firm at this place has made purchases to the amount of \$30,000 from the farmers of this section.

The Blue Grass Grocery firm will move their stock from the Thompson block to the G. S. Gaines store-room.

Miss Murphy, of the Garrard Graded School, gave the children of her department a candy pulling Friday afternoon.

Miss Ann Dunn has been in what was considered a fatal condition from pneumonia. Her brother, Erasmus Dunn, has also been ill of grip.

Mrs. Samuel Haeselden entertained Thursday evening in honor of the Misses Robertson, of Cynthiana. Mrs. Mattie Fox is visiting in Louisville. Miss Dove Harris is at home again, after a visit to Lexington.

A talented set of Negro musicians have formed a troupe known as the "Harris Minstrels." They gave an entertainment Friday night, which was pronounced quite good, and was attended by a number of white citizens.

E. R. Fox, of Louisville, secretary of the Kentucky Sunday School Association, lectured at the Methodist church on Friday evening and county officers were elected to prepare for the State convention at Danville in August.

The Ladies' Aid Society, of the Christian church, will meet next Saturday afternoon with Mrs. K. Wayts, at the home of R. H. Batson. The Social and Industrial Club meets this afternoon with Mrs. Banks Hudson.

Mrs. Eliza Moberly, of the Stone neighborhood, died at her home Friday night of pneumonia. She was about 68 years of age and leaves a family of seven grown children. The remains were taken to Richmond Sunday for interment.

Senator George T. Farris is just back from a canvassing tour and reports Casey solid for him. He also believes Lincoln just as favorable, as he learned nothing to the contrary. He feels quite hopeful and sees no reason now why he will not get the nomination.

James L. Hamilton bought a horse of J. Bourne for \$80, and J. A. Robinson bought a calf for \$17.50. L. Saunders a farmer of this county, raised 3,000 pounds of hemp on a two-acre plat of ground. Garrard's hemp and tobacco yields this last season are unusually fine.

Miss Fannie Spratt and Richard Brown, both of Paint Lick, are to be joined in the holy bonds of wedlock Wednesday evening at 7 o'clock at the residence of the bride's parents. This union was to have been consummated several weeks ago, but an attack of measles befall the seamstress and hindered the completion of the bridal finery.

A novel entertainment will be given here at the court-house in the near future known as "A Trip to Tramp Town." "Faust" drew a well-filled house Saturday night, and the audience was much pleased, especially with White's impersonation of Mephisto. The leading role could hardly be surpassed, even on New York or London boards.

Mrs. Martha A. Leavell died at the home of her daughter in this city Saturday night, after only a few hours illness, supposed to be a combination of asthma and grip. She had reached the age of 70 and was for 30 years the widow of Louis T. Leavell, once a wealthy farmer and bank president of this section. She leaves only one daughter, Mrs. Dorcas Walker, the widow of the late Judge Wm. E. Walker. The funeral was preached Monday afternoon at the Presbyterian church by Rev. A. W. Crawford, and the interment followed in the Lancaster cemetery.

Today, at high noon, Miss May Z. Hughes, of this city, only daughter of Mr. and Mrs. M. D. Hughes, will be led to the hymenial altar by Mr. H. P. Noland, of Independence, Mo. Elder A. R. Moore, of the Christian church, performing the ceremony. Miss Hughes is an attractive young lady of the blonde type of beauty, and an unusually talented musician, having pursued with great diligence the study of this art from childhood, and then continuing the course at the Cincinnati Conservatory of Music. The groom is a bright young lawyer and an ambitious young man, and the newly-espoused couple will sojourn for a short time at St. Louis and other points in Missouri and then go to Seattle, Wash., to build a home and fortune in that far-away Western port.

Mrs. Naenia T. Carpenter, of Danville, visiting here at her late home, was found dead in her bed Sunday morning at the home of Mr. and Mrs. Ansel George. She was mingling with her many friends on the streets Saturday afternoon, ate a hearty supper and took part in animated and congenial conversation until rather a late hour. There was no response to a knock on her door and it was supposed she had been dead for hours. Her death was

due to heart disease, which may have been induced by grip in the form of lumbago, from which she was a sufferer several weeks ago. Mrs. Carpenter was a Miss Thompson, of Woodford, and leaves a brother and sister, Mrs. G. S. Gaines, of Danville. She had reached her 64th year, and had been a widow about six months, her husband, N. B. Carpenter, having died here on the 18th of August, after an invalidism of 10 years. A funeral was preached at the Baptist church by the Rev. Mr. Woolford Monday morning and the remains were taken to Lexington to be interred beside those of the husband.

An anti-cigarette bill has passed both houses of the Delaware Legislature, and will be signed by the Governor.

Senator Stillwell, of the Indiana Legislature, who introduced a resolution asking Gov. Durbin to extradite Fugitives Taylor and Finley, is in receipt of a threatening whitecap letter from New Albany.

A bill was introduced in the Minnesota Legislature appropriating \$10,000 for a statue for late United States Senator Cushman Kellogg Davis, to be placed in Statuary Hall, in the National Capitol at Washington.

Judge William H. Holt, United States district judge for Porto Rico, decided the Executive Council of Porto Rico is no more subject to injunction than the Senate of the United States. Investors are disappointed.

Reporter Turner, of the Court of Appeals, asserts that the delay in publishing the court reports is chargeable to Public Printer Fetter. Mr. Fetter, in his response to the court rule a few days ago, placed the responsibility on Reporter Turner.

To The Democrats Of Lincoln County.

Having been solicited by many friends, not only here but from over the county generally, I herewith announce myself a candidate for judge of Lincoln county, abiding cheerfully the result of the primary already ordered for March 16th, next. In doing this I have considered the responsibilities that devolve upon a county judge and should the voters entrust me with that office, I will discharge the duties thereof to the best of my ability, having always an eye single to the best interest of the county. All my life I have been a democrat and have contributed whatever of influence and support I could command to the advancement of democratic principles and the success of the party. Hoping you will look on my candidacy with favor, I am yours in democracy.

J. D. SWOPE.

R. C. WARREN, chmn.

"I hobbled into Mr. Blackmon's drug store one evening" says Wesly Nelson, of Hamilton, Ga., "and he asked me to try Chamberlain's Pain Balm for rheumatism with which I suffered for a long time. I told him I had no faith in any medicine as they all failed. He said: Well, if Chamberlain's Pain Balm does not help you, you need not pay for it." I took a bottle of it home and used it according to the directions and in one week I was cured, and have not since been troubled with rheumatism." Sold by Craig & Hocker, Druggists.

It took two hours to find a Judge to appoint a receiver for one of our unseemly distemporaries, and it will require a much longer period of time for the receiver to find anything worth receiving.—Louisville Times.

The total assessment of Fayette county is \$29,739,067, an increase by the supervisors of \$176,668.

THE LATE J. "TINE" COOK,
Of Lancaster.

HUSTONVILLE.

W. L. Evans has built an excellent ice house, but it looks like he won't get it filled this season.

Our people generally deeply regret the proposed departure of Mr. J. W. Lockridge and family. They will move to Monticello, where Mr. L. has bought a large boundary of timber land.

W. L. Evans' store is indeed a thing of beauty and his friends hope it will prove a joy forever in bringing him in lots of shekels. June H. Reid is assisting as salesman and business is starting off nicely.

W. S. Drye has received a dozen of the finest horses ever brought to Hustonville; one of which he refused \$350 for the other day. He is a magnificent specimen of the equine family and Mr. Drye says that it will take \$500 to make him part with him.

Miss Alice Cabell is ill. Miss Alice Drye is back from Marion greatly improved in health. J. B. Adams and family are thinking of moving to Danville. Paul Drye was up from Marion last week. Mrs. J. W. Allen was able to drive to Mr. Samuel Reid's Sunday. L. M. Reid was in Cincinnati last week. J. B. Dunlap, of Kansas City, was with relatives here. Harry B. Hocker, of Danville, was up Sunday.

Mr. Terry Goode, aged 94, is quite sick. He is probably the oldest man in Lincoln county and beyond doubt the most systematic one. For the last half century his shoes, clothes, and hat have been put in the same place each night, his watch has hung on the same nail, while each and every farming implement is put in its proper place before he retires. He can tell in an instant where every hoe, plow, piece of harness, &c., &c., are while the night is never too dark for him to find, without aid of light, any of his possessions.

Mr. Goode's family is using the cook stove he bought nearly 50 years ago, while the sister he got when he first went to house-keeping still does its daily work. He has a corn cob he has shelled corn with for over 35 years and uses the old shuck horse collar pads he bought before leather collars were made. While not an up-to-date farmer Mr. Goode is a good one and has done well for the 10 children he has raised.

CRAB ORCHARD.

Mr. Joe Newland and W. D. Ramsey leave for Florida Tuesday, to be gone several months. They will take a cook and camping outfit along and expect to enjoy life wherever it suits them best.

The Nicholaville Telephone Company is having several thousand poles bought here and with spokes, staves, logs and lumber of all kinds, the railroad siding presents a busy appearance.

Measles is prevalent in our community and the families of Mr. J. H. Collier and T. M. Holmes both have it. There are 10 in each family to be affected. Whooping cough is also numerous among the latest arrivals.

Mr. and Mrs. Charles Redd, Sr., will celebrate their golden wedding Tuesday, having been married 50 years. Both are yet hale and hearty. Mr. Redd is 86 and Mrs. Redd 76 years of age. They will entertain a number of relatives and friends.

Dr. J. W. Guest spent Sunday with his parents and returned to Louisville Monday. Will Brooks left for Cincinnati Sunday to be gone until spring trade is over. Miss Averilla Livingston left Friday night for Lebanon, O., to enter Normal school. Mr. John Riddle rented the coal and feed store of W. D. Ramsey and will be pleased to wait on the public during Mr. Ramsey's absence. Mrs. Jane Dickerson lost a valuable cow from hydrocephalus. Mrs. Will Morrow stopped off at Crab Orchard on her return from Mt. Vernon and is a guest of Mrs. J. A. Holland. We would like to see our townsmen, Messrs. Ike Herrin and J. C. McWhorter both elected to the offices they seek.

The Laurel circuit court convened at London with seven murder cases and anywhere from 500 to 600 minor criminal cases on docket. This is the same quiet, peaceful retreat, and exalted law-abiding place to which Fugitive Taylor in his hour of extremity attempted to adjourn the Kentucky Legislature.—Glasgow Times.

THE INTERIOR JOURNAL

E. C. WALTON.

THE assassination organs are standing on their hind legs and howling because Gov. Beckham pardoned a man named Slusher, who gave one Dr. Smith, a detestable turncoat, a well deserved beating, when he attempted to interfere in the conduct of the election in a Louisville precinct last November. A fine of \$25 and a jail sentence were assessed against Slusher, but Gov. Beckham rightfully regarding the whole thing as political persecution and seeing that Slusher had been selected as victim by those responsible for the outrages in Louisville, set him free. For this act he is denounced in all manner of ways by those papers which earn their living by lying and traducing their betters, but conservative men generally will applaud the granting of the pardon as not only proper, but highly creditable to the good sense and courage of our excellent executive. This paper is not given to endorsing pardons, and thinks that governors too often abuse the prerogative, but the one in question has its unqualified endorsement and sanction.

THE dispatches say that Steve Sharp, the Lexington turncoat, will be appointed marshal of the new Federal court district. We suppose the graft is for the purpose of paying him for his infamous action at Frankfort doing the Taylor rebellion. The republicans are welcome to a man who worked the democratic party for all he was worth and then worked himself out of it for that party's good, but we do not blame those who have borne the heat and burden of the day for kicking on being turned down by this eleventh hour convert and being preferred over them. Gen. Dan R. Collier or some other good republican was entitled to the marshalship over any mealy ex-democrat, who changes his politics for revenue only.

THE Louisville Dispatch has been placed in the hands of a receiver tho' here appears nothing to receive. The infamous sheet was started with the money of democrats, many of whom were not able to contribute to such an enterprise, and strained a point to help secure a paper that would support the nominees and the platform of the regular democracy, but it got into the clutches of adventurers who soon sold out to a railroad corporation, which dropped it soon as it got through with it and left it to die by degrees. The end seems near at hand and when it comes, everybody who hates treachery and despises hypocrisy will rejoice and be glad. It is a pity that the ignominious death has so long been delayed.

To a person at all familiar with the situation, the leading editorial of Sunday morning's Lexington Herald criticising rather sharply some expressions of the Leader about President Lowry, of the city council, is enough to make a horse laugh. Everybody in Lexington knows what a strong umbilical cord unites these two republican papers. They are printed in the same building, from type made by the same machines and the same quill does for both. Any criticism, therefore, by the one of the other is the sheerest effort to hoodwink the unwary and a play to the galley gods.

IN obedience to instructions from Hanna, Mr. McKinley will call an extra session of Congress, pretendedly for the purpose of considering the Cuban constitution, but really to have the Ship Subsidy bill passed. Hanna has promised to repay the beneficiaries of the bill for their large contributions to the campaign fund, and he is not the man to go back on a promise to pony up the public's money.

A HUSBAND in Pennsylvania has sued his wife for divorce on the grounds that she has cold feet and persists in digging them into his backbone while they are in bed, thereby freezing his marrow and injuring his health generally. There ought not be any question of the plea for separation being granted. The grounds for divorce seem to be even stronger than the ones suggested in Holy Writ.

GOV. BECKHAM has no warmer or stancher supporter in his effort to give the State a good administration, than the Somerset Journal, and we have occasion to know that the handsome and capable young executive fully appreciates Editor Campbell's efforts in his behalf before the election and his unwavering support since.

THE Middlesboro News makes so many changes, some for the better and some for the worse, that we hardly know what to expect next. Last issue has a cover nicely printed in colors, and but for its type-writer style of setting type, the edition would cause old Harpel himself to grow jealous, were he alive.

COUNCILMAN STRACK, of New Albany, Ind., has an eye to business. He wants his town to license prize fighting in order to liquidate its indebtedness. There are worse ways than the one proposed by Mr. Strack of getting square with the world. It beats taking the bankrupt law a long shot.

VIRGINIA has a law that when the Legislature is called into extra session the members receive \$180 no matter how long or how short a time the session lasts. The body was recently convened for the purpose of considering a call for a constitutional convention. It accomplished its work in the shortest session in the State's history and after arranging all the details for the convention, which it decided was necessary, adjourned yesterday. This shows the value of paying by the job. Had the members been permitted to draw a good per diem, they might have remained in session to the full limit, whereas they got down to work and soon completed it. The object of the convention is to devise the ways and means to eliminate the ignorant, and vicious vote and members to it are to be elected at an early date. Senator John W. Daniel will be a candidate for membership and says that while he knows the convention is likely to prove a political grave yard for its members he wants to die doing his duty, a sentiment that should animate every man in public life.

BY the reductions in the war revenue tax by the Senate committee the American and Continental Tobacco Companies were virtually presented with \$9,000,000, and this is said to account for an 11 point rise in the stock. The House conference committee would not, however, agree to favor the trust to such an extent. The Senate is ever ready to make the rich richer by furthering trusts when the opportunity presents itself.

THE great and overshadowing question who will ride with Mr. McKinley to his second inauguration has at last been settled. The honor is to be enjoyed by Senators Hanna and Jones, chairmen of the republican and democratic National committees, respectively. Now let us have a surcease from troubling and an era of peace.

AS the raiding and burning of toll-gates put an end to the toll system of turnpikes in Kentucky, so may the smashing of saloon windows and the destruction of property by Mrs. Nation end the unlawful conduct of whisky joints in Kansas. Occasionally doing evil results in good.

Mr. Perrin stands well with the company and it is not improbable that they will let him have his office here, if he will go back to his first love.

What Is A Convent School?

A Convent School! What kind of an institution is it?

The above is a question often asked and to which erroneous answers are frequently made; either because the one to whom it is addressed does not know what it is or because he is influenced by prejudice.

A convent school is one in which the pupils are taught to regard study as a duty; in which study is rendered a pleasure, not a task; in which the pupils are taught the respect, obedience, and deference due to parents and to the family circle and the refined courtesies of social life, while at the same time there is instilled into their youthful minds the greatest respect for God's holy laws and those of their country.

By too many, a convent school is supposed to be a sort of prison, in which the pupils are, in a great measure, deprived liberty of action and speech. Of course in them, as in all institutions of the kind, certain limits are marked, beyond which the pupils are not allowed, or rather beyond which they are not expected to wander, for love keeps them in their proper place. As to liberty of speech, no prohibition exists except against what is immoral. On the contrary, pupils are not only allowed, but they are encouraged to express their ideas freely. This is done for the purpose of exercising their conversational powers. The restraints to which pupils are subjected are no greater than those employed in a well regulated family, in which the younger members are taught the order, neatness and industry necessary to promote the happiness of home.

Should any one doubt the truth of what I say, I advise him to visit one of Kentucky's oldest conventional establishments, the Academy of St. Catherine, of Lienna, fondly called by its pupils "Lienna Vale."

This celebrated seat of learning is situated near Springfield. It was founded in 1822 by members of the Dominican Order, which is so justly renowned for learning. A favorite from the beginning, it claims as its graduates many of the leading ladies of the State.

As the visitor rides from Springfield he views with pleasure the natural beauties of scenery, beauties for which Kentucky is noted, and almost without being aware of it, comes upon the object of his visit. Before him, situated upon a hill, which is itself surrounded by hills, stands the beautiful convent and academy, surmounted by a cross, the emblem of man's redemption. Truly art has joined hands with nature, rendering the spot an Eden of delight to the happy beings who dwell beneath its roof.

The academy is a beautiful structure and it is well supplied with modern improvements, he will see, when taken to the library, study-hall, class-rooms, dining-hall, dormitories and lavatory.

The Order of St. Dominic, to which the ladies who conduct the academy, belong, is noted as an educational body, not only in Europe, where it has produced some of the most remarkable men of science, but also in our own country.

To know what a convent school is, to understand its workings and beneficial influence it exerts upon the minds of pupils, a person should make himself personally acquainted with one; and should any one for this purpose choose lovely "Lienna Vale," we promise him that the courtesy of the sisters and the bright and happy faces of its pupils will induce him to repeat his visit.

As regards religion, all pupils are required for the sake of uniformity, to attend services on Sunday, and morning and evening prayers; further than this no influence is exerted, except the example of an upright, christian life.

A LINCOLN COUNTY STUDENT.

WELL DONE, JUDGE MORROW.—The predisposition to lawlessness in southeastern Kentucky received a check in the late term of Whitley court that gives confidence to the hope that one day smiling peace will return to that fine region of Kentucky. The prompt vindication of law administered by an able and courageous judge, aided by a bold and determined prosecutor and upheld by a strong arm of a chief executive affords a lesson to the feud and mob element that will be worth much to the country. The Shotwells and their co-conspirators were placed under the proper rulings by the distinguished Court; 10 of the 12 jurymen found them guilty under the evidence; two of the jury dissented. The Court held the two principals without bail and fixed the bail of the remainder at from \$2,000 to \$4,000. The press and the law abiding people of the State say with one accord, well done Judge Thomas Z. Morrow! — Somerset Journal.

DEAFNESS CANNOT BE CURED

by local application as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this is removed the ear becomes normal, perfect hearing and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

Sold by Druggists, 75c.

Hall's Catarrh Pills are the best.

A Taylorsville dispatch says: Tom St. Clair and wife, colored, were passing through the premises of Marion Farris in the Rival neighborhood, when Farris' wife fired on them with a shotgun. Both barrels were discharged at the negroes and both were hit, but not seriously injured. The shot struck the negro man in the head and the woman in the body.
